PARASUN TO PROVIDE INTERNET SERVICES FOR MULTIPLE DWELLING UNITS IN NEW YORK & PENNSYLVANIA

Vancouver, Canada, February 13, 2008 - Parasun Technologies Inc., a leader in partnering with cable operators to provide Broadband Internet services and support, has been selected by Rocket Broadband Networks Inc., provider of cable television and Internet services to apartment buildings and condominiums, to provide Broadband support services for Rocket's 5,000 Broadband subscribers in MDU properties throughout New York and Pennsylvania.

"We did aggressive market research and found the flexibility and creativity of the Parasun OSS support solution to be the ideal fit for the unique architecture we have spanning across 59 properties," said Clayton Baumann, COO of Rocket Broadband.

"We are honored to be selected by Rocket Broadband to support their MDU Broadband service" said Mike Schmidt, VP of Sales & Marketing for Parasun, "and have every confidence that our support solutions will greatly enhance their Broadband service offering."

About Parasun Technologies Inc.

Parasun Technologies, a wholly-owned subsidiary of Uniserve Communications Corporation (Symbol USS [TSX-V]), provides industry-leading Broadband provisioning and management and support solutions for small and mid-tier network operators. Hundreds of communities across North America have successfully deployed Parasun's data support solutions, which include OSS software that integrates with the leading 3rd party billing providers, Hosted ISP services, VoIP support services, 24/7 Help Desk and Network Operations services, and Trusted Third Party services for CALEA compliance.
