COMSOUTH SELECTS PARASUN OPERATIONS SUPPORT SYSTEM (OSS) BROADBAND MANAGEMENT AND SUPPORT PLATFORM FOR THEIR DATA SUBSCRIBERS

Vancouver, Canada, March 14, 2008 - Parasun Technologies Inc., a leader in partnering with cable operators to provide Broadband Internet services and support, has been selected by ComSouth to provide OSS Broadband support to their 3500 data subscribers in the community of Perry, Georgia.

The agreement sees ComSouth licensing the use of the Parasun's Operations Support System (OSS) Broadband provisioning and management software.

The Parasun OSS platform will be implemented in this community in March 2008.

About Parasun Technologies Inc.

Parasun Technologies, a wholly-owned subsidiary of Uniserve Communications Corporation (Symbol USS [TSX-V]), provides industry-leading Broadband provisioning and management and support solutions for small and mid-tier network operators. Hundreds of communities across North America have successfully deployed Parasun's data support solutions, which include OSS software that integrates with the leading 3rd party billing providers, Hosted ISP services, VoIP support services, 24/7 Help Desk and Network Operations services, and Trusted Third Party services for CALEA compliance. For more information about Parasun, please visit www.parasun.com.

About ComSouth

ComSouth is an independent telecommunications provider of reliable, high quality cable television, Internet, telephone and wireless services in mid-Georgia.
